## Year 4 - Autumn Term

| Week 1 Week 2 1 Week 3 $\quad$ Week 4 | Week 5 Week 6 Week 7 | Week 8 | Week 9 Week 10 Week 11 | Week 12 |
| :---: | :---: | :---: | :---: | :---: |
| Number - Place Value <br> Count in multiples of $6,7,9.25$ and 1000. <br> Find 1000 more or less than a given number. <br> Recognise the place value of each digit in a four digit number (thousands, hundreds, tens and ones) <br> Order and compare numbers beyond 1000 <br> Identify, represent and estimate numbers using different representations. <br> Round any number to the nearest 10,100 or 1000 <br> Solve number and practical problems that involve all of the above and with increasingly large positive numbers. <br> Count backwards through zero to include negative numbers. <br> Read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value. | Number- Addition and Subtraction Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate. <br> Estimate and use inverse operations to check answers to a calculation. <br> Solve addition and subtraction two step problems in contexts, deciding which operations and methods to use and why. | Measurement: <br> Length and <br> Perimeter <br> Measure and <br> calculate the <br> perimeter of a <br> rectilinear figure <br> (including <br> squares) in <br> centimetres and <br> metres <br> Convert <br> between <br> different units <br> of measure [for <br> example, <br> kilometre to <br> metre] | Number - Multiplication and Division <br> Recall and use multiplication and division facts for multiplication tables up to $12 \times 12$. <br> Count in multiples of 6, 7, 9. 25 and 1000 <br> Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers. <br> Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to mobjects. | ㄷ <br> 0 <br> 10 <br> -0 <br> 0 <br> 0 <br> 0 <br> 0 <br> 0 |

## Year 4 - Spring Term

| Week 1 Week 2 Week 3 | Week 4 | Week 5 | Week 6 | Week 7 | Week 8 | Week 9 | Week 10 | Week 11 | Week 12 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Number - multiplication and division Recall and use multiplication and division facts for multiplication tables up to $12 \times 12$. <br> Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers. <br> Recognise and use factor pairs and commutativity in mental calculations. <br> Multiply two digit and three digit numbers by a one digit number using formal written layout. <br> Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects. | Measurement- <br> Area <br> Find the area of rectilinear shapes by counting squares. | Fractions <br> Recognise and show, using diagrams, families of common equivalent fractions. <br> Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten. <br> Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number. <br> Add and subtract fractions with the same denominator. |  |  |  | Decimals <br> Recognise and write decimal equivalents of any number of tenths or hundredths. <br> Find the effect of dividing a one or two digit number by 10 or 100 , identifying the value of the digits in the answer as ones, tenths and hundredths <br> Solve simple measure and money problems involving fractions and decimals to two decimal places. <br> Convert between different units of measure [for example, kilometre to metre] |  |  | $C$ <br> 0 <br>  <br> -0 <br> 0 <br> 0 <br> 0 <br> 0 |

## Year 4 - Summer Term

| Week 1 Week 2 | Week 3 Week 4 | Week 5 | Week 6 Week 7 | Week 8 Week 9 Week 10 | Week 11 | Week 12 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Decimals <br> Compare numbers with the same number of decimal places up to two decimal places. <br> Round decimals with one decimal place to the nearest whole number. <br> Recognise and write decima equivalents to $\frac{1}{4}, \frac{1}{2}$ and $\frac{3}{4}$ <br> Find the effect of dividing a one or two digit number by 10 or 100 , identifying the value of the digits in the answer as ones, tenths and hundredths | Measurement- Money Estimate, compare and calculate different measures, including money in pounds and pence. <br> Solve simple measure and money problems involving fractions and decimals to two decimal places. | Time <br> Convert <br> between <br> different units <br> of measure [for <br> example, <br> kilometre to <br> metre; hour to <br> minute] <br> Read, write and convert time between analogue and digital 12- and 24-hour clocks. <br> Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days. | Statistics <br> Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs. <br> Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs. | Geometry: Properties of shape Identify acute and obtuse angles and compare and order angles up to two right angles by size. <br> Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes. <br> Identify lines of symmetry in 2-D shapes presented in different orientations. <br> Complete a simple symmetric figure with respect to a specific line of symmetry. | GeometryPosition and <br> Direction Describe positions on a 2-D grid as coordinates in the first quadrant. <br> Plot specified points and draw sides to complete a given polygon. <br> Describe movements between positions as translations of a given unit to the left/ right and up/ down. |  |
